

Website Landing page
Allows the user to login, also providing new users the chance read about our application

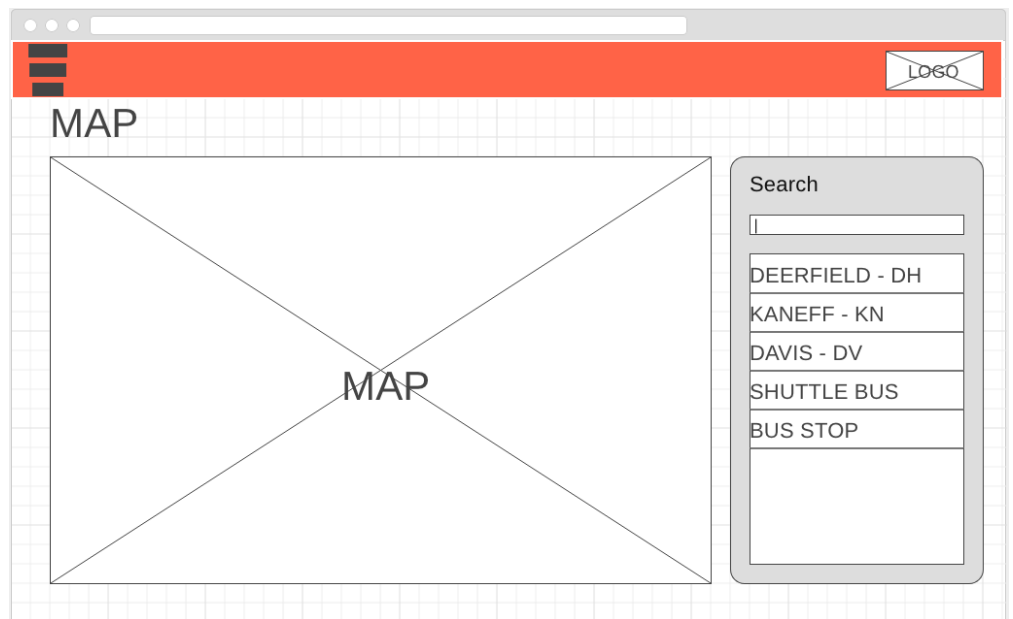

Registration
Allows the user to create a new account

Calendar / Home Page
Once logged in user has all main content here, with a dashboard on the calendar, and access to recent notes

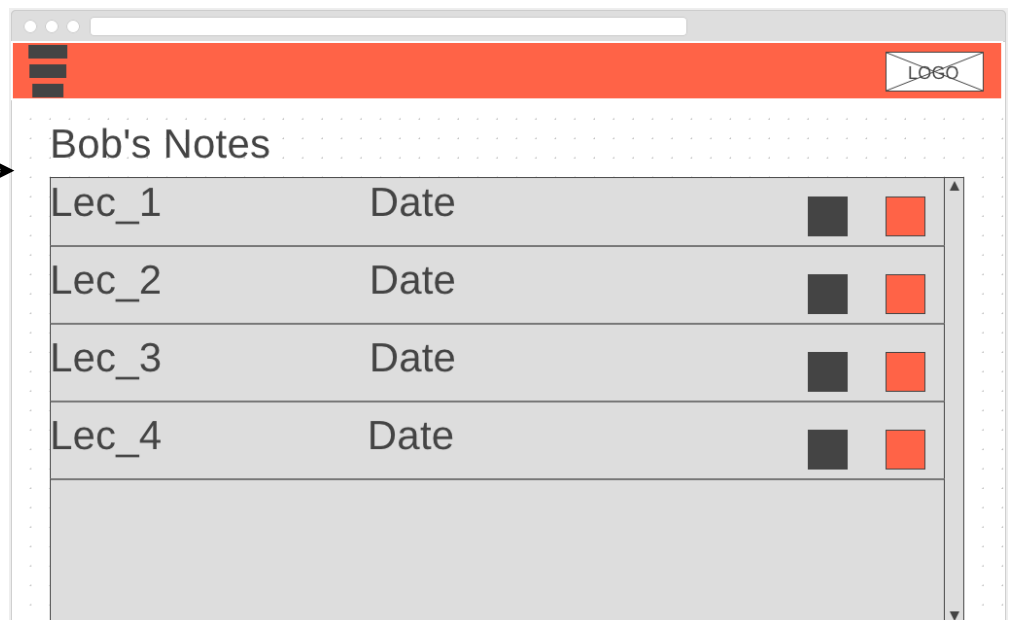

Map Page

Explore UTM in all it's glory!
Common building are
stored on the side

My Notes Page

The users note, can delete a
note, downloa, etc from this page

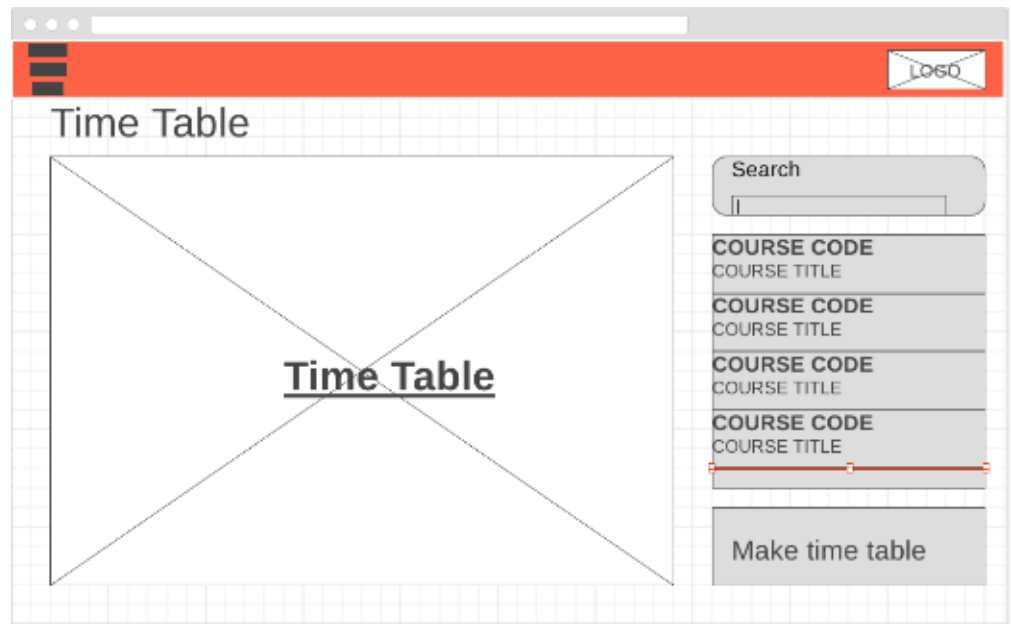

Note Page

The users note, this is the
page when user wants to create

Time Table Page

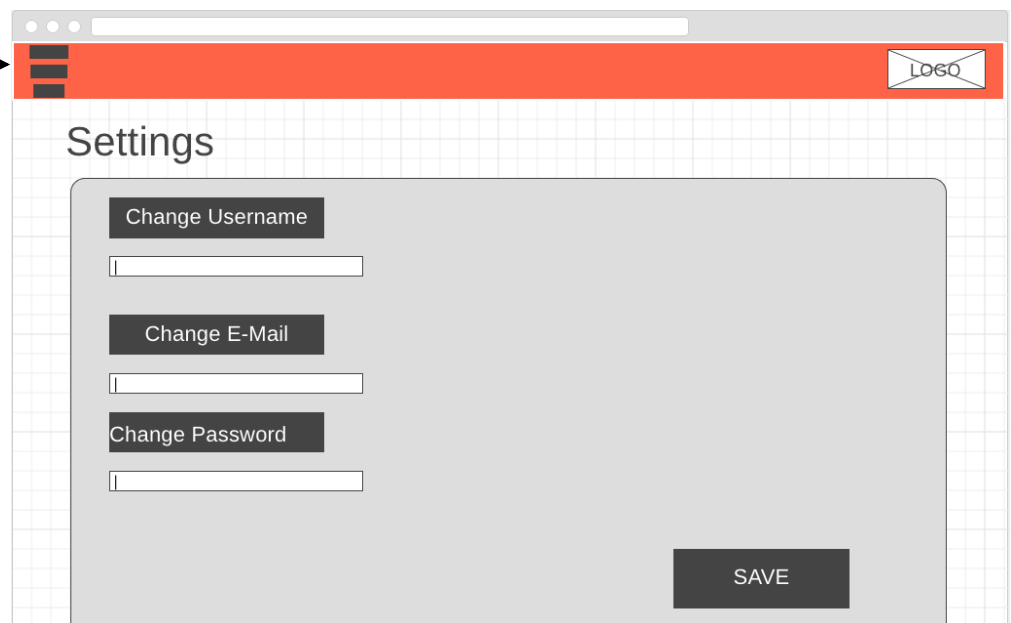

A place where the user can play around with the course selection. There will be a generator here to create a timetable for the user

The Time Table page features a red header bar with a hamburger menu icon on the left and a 'LOGO' placeholder on the right. The main content area is a large grid with a large 'X' across it and the text 'Time Table' in the center. To the right of the grid is a search bar labeled 'Search'. Below the search bar are four identical course selection rows, each containing a 'COURSE CODE' label, a 'COURSE TITLE' label, and a text input field. A red line is drawn across the bottom of these input fields. At the bottom right is a 'Make time table' button.

Settings Page

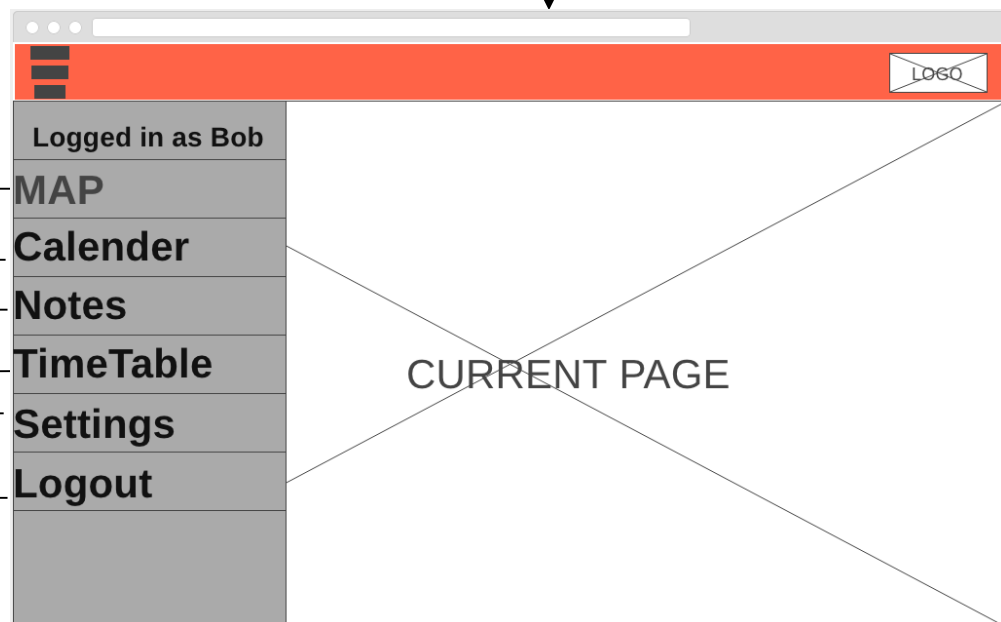

User can adjust items in their profile

The Settings page has a red header bar with a hamburger menu icon and a 'LOGO' placeholder. The main content area is a large gray box with three sections: 'Change Username' with a text input field, 'Change E-Mail' with a text input field, and 'Change Password' with a text input field. A 'SAVE' button is located at the bottom right of the gray box.

When Pressed, This side bar pops up
Return to origin page if pressed again

This mockup shows the sidebar and main content area. The sidebar is a vertical list of items: 'Logged in as Bob', 'MAP', 'Calender', 'Notes', 'TimeTable', 'Settings', and 'Logout'. The main content area is a large gray box with a large 'X' across it and the text 'CURRENT PAGE' in the center. Arrows point from the sidebar items to the main content area, indicating navigation.
